

## Company Profile

### One of the Best Manufacturers of Mobile Storage Devices

Aok Electronics Co. Ltd is a professional high-technology company that has been developing, producing and processing mobile storage device peripheral products for more than eight years. We are one of the top manufacturers of mobile storage device in China.

### Solid Productivity and Strong Innovation Ability

Our loyal 100 staff, including five electronic engineers and three structural designers, work conscientiously in a 2,000-square-meter plant to finish each order as soon as possible. We have injection mold factory, metal, SMT and silkscreen-print department. There is an experienced R&D team, which seek continuous innovation and bring out new products every year to satisfy the customers.

### Renowned for High Quality in the Industry

Our products have been certified by UL, CE, FCC and RoHS, and we also can provide customized product certificate. All the crucial parts are imported from well-known brands. Our competitive price and steady quality of products are in a leading position in the industry.

### High Customer Satisfaction and Loyalty

90% of our customers keep a long-standing partnership with us since our establishment. Most of our products are exported to more than 20 countries, like the US, the UK, Japan and South Korea.

### Our advantages:

- More than nine years' OEM/ODM experience
- Free production design
- Rapid mold opening in 30 days
- Small orders accepted and free samples
- SMT/DIP PCB assembly and injection molding
